**Summer Camps**

Registration for Missouri S&T's summer camps will open on March 10, 2021. This year the summer camps will be virtual, however we will continue with our promise of excellent experiential learning. Students can learn about engineering, explosives, building a robot, and so much more! A summer at S&T could be the spark for a successful future. [Get more information on S&T summer camps.](#) Scholarships are available.

**Spring College Fair**

This February, Missouri S&T's Career Opportunities and Employer Relations (COER) office hosted its spring career fair. Due to Covid-19 the fair was held virtually. Although career fairs are held twice a year (fall and spring semesters), employers visit the S&T campus year-round. Representatives from 198 companies attended this year's spring fair! More than 3,300 students visited with these representatives and hundreds of full-time employment, co-op, and internship offers were made! The fall fair is scheduled for September 28, 2021. Please click here for more information about [COER](#) and S&T's career fairs.

**Missouri S&T Among Winners in NASA's BIG Idea Challenge**

The success of NASA's future plans to explore and inhabit the moon may depend in part on research by university students, including a team of seven from Missouri University of Science and Technology who have won a grant from the space agency to develop a way to remove lunar dust from power-producing solar cells.

The Missouri S&T team is one of seven university-affiliated groups to be selected for funding through NASA's [Breakthrough, Innovative and Game-changing \(BIG\) Idea Challenge](#). [Read the full article.](#)

The Best Ever St. Pat's Celebration

Missouri S&T has been celebrating St. Pat's since 1908, when a group of Rolla students declared that St. Patrick was the patron saint of engineers. Each fall semester, the student-run St. Pat's Board holds 150 and 100 "DAZE" events in anticipation of the coming celebration. When students return to school after a much-needed Winter Break, they immediately start counting the "Daze" to St. Pats.

Once 50 Daze hits, the S&T community will kick-off the St. Pat's season with a trivia night where members of different fraternities, sororities, organizations, and other communities will form teams to earn points in the annual St. Pat's Competition. Before the Celebration can officially start, the young and strong students among Missouri S&T's organizations must defend the campus from the impending Snake Invasion! The "10 DAZE" long celebration kicks off with the selection of St. Pat and his highest court members, comprised of the senior representatives of the St. Pat's Board. St. Pat's celebrations in Rolla may look a little different this year, however plans are currently being finalized for a safe and socially distanced 113th Best Ever. Please go to stpats.mst.edu to find out more historical information and the events planned for this year!
